Claims 16-18 are allowed primarily because the references of record, singly or in combination, cannot anticipate or render obvious the amplification circuit of claim 16, especially the limitations of: a first metal film disposed on the insulating substrate; a plurality of transistors that overlaps the first metal film; and the second metal film including a first part that extends along a first direction along which the first metal extends and second parts of each of which extend along a second direction intersecting the first direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
